✉️ Hanmatmal, Ta. Dharampur, Dist. Valsad

Summary

To have a growth oriented and challenging carrier, where I can contribute my knowledge and skills to the organization and enhance my experience though continuous learning

Education

R.N.G.Patel Institute Of Technology
B.VOC(Software Development)

Adarsh Nivashi Shala, Dharampur
HSC

Ghanshyam High School Motapondha
SSC

Skills

Programming Language: HTML,CSS, BOOTSTRAP

Design Tools: Figma

Other: UI/UX Design, Graphics Design

Projects

Blood bank Application in Figma

Completed hands-on design of a Blood Bank Application using Figma, focusing on creating a user-friendly and responsive interface. Designed features such as donor registration, blood request forms, availability tracking, and emergency contact modules while following user-centered design principles. Gained practical experience in wireframing, prototyping, color selection, and creating clean UI layouts for healthcare-based applications.

Quiz Application in Flutter

Developed a smart Quiz Application using Flutter integrated with AI-based features for dynamic question generation and personalized feedback. Implemented functionalities such as user authentication, category-based quizzes, real-time scoring, and performance analytics with a clean and responsive UI. Gained hands-on experience in Flutter development, state management, API integration, and AI-powered content handling to enhance user engagement.

Online Learning Platform

Developed an AI-powered Online Learning Platform designed to provide personalized learning experiences and smart content recommendations. Implemented features such as user authentication, course management, video lectures, progress tracking, quizzes, and AI-based performance analysis to enhance student engagement. Gained hands-on experience in full-stack development, API integration, database management, and AI-driven recommendation systems while building a responsive and user-friendly interface.

On-Job Training

Database System Assistant

Company- Bitkhanan IT Education, Surat
Completed hands-on training in MySQL database management and Microsoft Office. Gained practical experience in basic database operations, data handling, and structured data management while developing accuracy, organization skills, and professional work discipline.

Web Development

Company- Unistar Softech Pvt. Ltd., Bardoli
Completed practical training in HTML-based web development, focusing on creating structured and user-friendly web pages. Gained hands-on experience in basic front-end concepts, clean coding practices, and web layout design.

User Experience Designer

Company- Pixeta App Lab, Navsari
Completed hands-on training in UI/UX design, working with Figma and Adobe Illustrator to design user-friendly interfaces and visual assets. Gained practical experience in wireframing, basic prototyping, and user-centered design principles..

Advanced Web Technology

Company- Unistar Softech Pvt. Ltd., Bardoli
Completed advanced development training in Laravel integrated with AI to build intelligent and scalable web applications. Developed secure RESTful APIs, authentication systems, and database-driven solutions while implementing AI-powered features such as chatbots, smart search, and automated recommendations. Gained hands-on experience in backend architecture, API integration, performance optimization, and deploying robust Laravel-based applications following industry best practices.

Android Programming with Ai

Company- Ultron Technologies, Anand
Completed hands-on training in Android application development using AI to build smart and user-friendly mobile applications. Implemented core Android components, UI design, API integration, and AI-based features such as chatbots, smart suggestions, and automated data processing. Gained practical experience in developing responsive Android apps while following modern development standards and best practices.

Full Stack Development with Ai

Company- EFSOULS Limited
Completed hands-on training in Full Stack Development using AI to build smart and scalable web applications. Developed responsive front-end interfaces and secure back-end systems while integrating AI features such as chatbots, automated responses, smart recommendations, and data-driven insights. Gained practical experience in API integration, database management, and deploying intelligent applications using modern development technologies.
